

Naresh Devineni is an Assistant Professor in the Department of Civil Engineering and a Faculty Affiliate at NOAA-Cooperative Remote Sensing Science and Technology Center in The City University of New York's City College. He holds an MS and PhD in Civil Engineering from North

Carolina State University. He did his post-doctoral studies at Columbia University. He also worked as a Consultant for the World Bank for brief period in 2009. He has diverse interests in hydro-climate modeling and extremes analysis, statistical methods, water sustainability and risk assessment and water systems analysis. He is motivated by challenging problems interfacing human needs, engineering innovation and scientific advancement.

He is the Chair of the Graduate Research Award committee for Natural Hazards focus group at American Geophysical Union (AGU). He is also a member of American Society of Civil Engineers, American Meteorological Society and American Water Resources Association. He serves as a reviewer for Water Resources Research, Journal of Hydrology, Journal of Water Resources Planning and Management, Journal of Water and Climate, Journal of American Water Resources Association, International Journal of Water, Hydrology and Earth System Sciences, Climate Dynamics and Geomatics journals.
